Description: We have a beautiful litter of bengal beauties. Our TICA registered male and female produced 5 healthy kittens with fun personalities who want to play, explore and cuddle. We are small private breeders with TICA bengals who have healthy and beautiful bloodlines. Our babies come health certified and we will always be available for questions. Bengals love their people, they are great with kids and other animals. They are unofficially hypoallergenic and typically do not bother even bother those with severe cat allergies.

Our babies are almost 9 weeks old and can go to their new homes in just a couple of weeks. They are litter training wonderfully and have been eating a half dry half raw diet.

We have 2 boys and 3 girls.

Standard contracts are for pets only but breeding rights may be given with consideration.
