Also purchased the ramp the allows them to go in and out of cage.

I'm sure there is some things I forgot.

I'm asking \$800 for all. That may seem high but I promise all that is worth so much more and almost all is just about new. That being said I am willing to negotiate. The food they eat is high end and you must be willing to keep them on that diet or a better raw diet! Contact me for questions.
