Description:

Machu (purchased in Peru with girlfriend Picchu) is looking for a new home. With increased international work travel and our son in college, our family feels they deserve more attention and quality time. Them going together would be FABULOUS, but splitting them up for the right fit is ok. Both are 15 months old and NOT fixed. Theyre both up to date on shots and in great overall health. (Raw diet) They both know quite a few commands, sit, shake, stay, in crate, outside... Theyre both house trained and crate trained. He is 28 lbs, white and black. He has Peru Kennel Club papers, we just hadnt completed the export forms yet for AKC. Theyre typical FUNNY FRENCHIES looking for YOU and want to cuddle on your sofa with you!! ❤️❤️
