### Description:

I have a litter of 8 adorable little six week old mixed lop bunnies. Their parents also need to be rehomed. :/ They have been treated very well and are used to being around people and being touched, so you can say they are living the life (see pic of the baby girl lounging). They are currently living in a playpen, and get a couple of hours of free roaming a day. The parents are strictly free roaming (not neutered or spayed) so if you are interested in them please take that into consideration. The parents are bonded so should not be separated and are featured in the last two pictures (boy is staring on the couch and girl is chewing up a Harry Potter DVD :D). Would love to keep them but might need to move/travel soon. They have adorable little personalities. I truly care for these bunnies and have spent every day with them since they were born. I am requiring this form to be filled out to ensure the proper care for the bunnies. Once you meet them you wont blame me. <https://forms.gle/7C7UTWkrG7MjSGMF9>All you have to do is answer the questions in the form, then shoot me a text telling me that you filled it out then I will get back to you. The bunnies will be available on November 10th, once they have turned 8 weeks and have been weaned off of mothers milk. The rehoming fee for each bunny is \$50. If you are new to caring for bunnies, I have no problem giving you the run down.
